Abstract—These instructions give you guidelines for preparing contributions to the conference. If you are opening this file within \LaTeX , use this document as a template to prepare your contribution. Otherwise, use this document as an instruction set. For submission guidelines, follow the instructions on paper submission system as well as the Conference website.

Keywords—Insert up to 4 keywords, separated by commas.

I. INTRODUCTION

THIS document is a template \LaTeX . If you are reading the .pdf version of this document, please download the electronic file, `cls.cls` available at http://www-2.unipv.it/compmech/idbn_home.html under the section Sottomissione Contributi.

Please use this document as a “template” to prepare your manuscript. For submission guidelines, follow instructions on paper submission system as well as the Conference website. When preparing your contribution styles are already set up, so you do not need to change the font sizes or line spacing to squeeze more text into a limited number of pages. Use italics for emphasis; do not underline. The congress page limit is 2 of text plus 1 for figures.

II. PROCEDURE FOR PAPER SUBMISSION AND PREPARATION

A. Review stage

The submission will be possible only through the conference management system associated with congress. The submission of the contribution is in English language; also abstract in Italian are welcome although English is the suggested language. The deadline for the abstract submission is **May 1st, 2018**.

B. Final stage

When you submit your final version, after your paper has been accepted, please use the same model, or modify the original version according to the instructions reported in this text.

C. Page setup

The paper format for contribution preparation is A4 (210 x 297 mm). Page margins are {1.5, 2.5, 1.5, 1.5} cm from { top, bottom, right, left }. Text runs in two columns (Width 8.75 cm, with 0.5 cm spacing), except for *Title, Authors, and Affiliations*.

D. References

Please number citations consecutively in square brackets [1]. The sentence punctuation follows the brackets [2]. Multiple references [2], [3] are each numbered with separate brackets [1]-[3]. In sentences, refer simply to the reference number, as in [3]. Do not use “Ref. [3]” or “reference [3]” except at the beginning of a sentence: “Reference [3] shows” Reference list needs to be typed manually at the end of the paper using the References style. Please note that the references at the end of this document are in the preferred referencing style. Give all authors’ names; do not use “et al.” unless there are more than five authors. Use a space after authors’ initials. Papers that have not been published should not be cited.

Capitalize only the first word in a paper title, except for proper nouns and element symbols.

E. Tables

Tables are to be embedded into the document and will appear as centred. They are numbered with roman numerals. The table title will appear below the enumeration (as it is shown in Table I), while the table caption will appear below the table.

TABLE I
UNITS FOR STYLE FORMATS

Style	Font	Other notes
Title	16 pt, bold, centered	
Author(s)	11 pt, regular, centered	

F. Figures

Figures are in a separate page. They will appear as centred in one- or two-column format. Insert a text paragraph break before each figure, and after each figure caption. Please make sure that figure title, axis label, and axis unit sizes are readable (not less than 8 pt). In order to increase readability, please insert figures with at least 200 dpi resolution. Place figure captions below the figures, and not as part of them. Do not put borders around the outside of the figures.
